

EOS imaging Customers,

Over the last several days, we have learned more, along with the world, the impact of COVID-19 is having on our teams, physicians, patients and healthcare systems.

In face of this unprecedented challenge we are collaborating closely with respective local authorities to respond effectively and implement appropriate changes.

We are putting necessary steps in place for our employees to ensure all have a safe working environment and continue to serve you in a secure and reliable manner. EOS imaging has a fully equipped field team in many locations around the world prepared to support you remotely and/or onsite if required and travel is allowed.

Our clients are the heart of our company and we look forward to continuing to support and assist you in delivering optimal care to your patients in these challenging times.

We appreciate your continued support and loyalty.

Sincerely,

Mike Lobinsky, CEO
